

GOLF BALL LAUNCHER

**350+
YARDS**

GCS introduced the Golf Ball Launcher to the Northwest in 2015. Since then, the feedback has continued to exceed our expectations... generating thousands of dollars for charities and organizations. Today, the launcher has become a must have for over 50 events a year. Here is how it works...

- Our team will arrive at least 30 minutes before the tournament starts to set-up our equipment. We supply the golf balls, launchers, and air tanks. In addition, we can fulfill sponsor signs, bring tents, tables, coolers, etc.
- **Step 1** – When each group arrives to the launcher hole our staff is there to welcome them and demonstrate the proper way to use the launcher.
- **Step 2** – Our staff fills the tank with oxygen, loads the golf ball, and then carefully hands to the player.
- **Step 3** – GCS helps guide their aim and angle, and then gives them the okay to fire!

FUNDRAISING IDEAS

- ✎ Set a donation price on the hole to fire the launcher.
- ✎ Pair it with a Competition Package (mulligans, string, etc.).
- ✎ Sell it as a Sponsor Category (Launcher Sponsor). It's a great way for your sponsor to stand out.

CONTEST IDEAS

- ✎ Closest to the Pin
- ✎ Accuracy Drive
- ✎ Long Drive Contest
