

Golf Corporate Solutions PHOTOGRAPHY

With 10 years of event photography experience, our professional photographers specialize in capturing the spirit of the event and the individuals that give it the character. Here is how it works...

- Before the event begins our staff will design the artwork for the player easel and discuss the agenda / details with the designated tournament committee member.
 - **Prior** to golf our photographer will arrive at least one hour before the shotgun starts to capture the overall registration atmosphere, including sponsors, volunteers, contests, etc.
 - **During** golf our photographer will capture foursome photos for each group. In addition, they will snap action shots, sponsor signs and any committee requests.
 - Once complete they will print out a foursome photo for each player and insert each one into the custom easel.
 - **Post** golf the photos will be displayed on our 50" tv and all the photo print outs will be laid out and ready for the golfers to pick up.
 - **Optional** banquet photos can take place upon requests
- A few days after our team will send over a link with the photos. Please allow a few days for our photographer to edit and post.
